

## ***11/14/09 – CT Area Code Change***

**CT Optimum Voice Customers:** The CT DPUC is adding a new area code in CT effective 12/12/09 and is requiring 10-digit local call dialing beginning 11/14/09.

After 11/14/09, you must dial local calls using the 10-digit telephone numbers (area code + phone number). If you forget to use the new 10-digit dialing procedure, your call will not be completed as dialed and a recording will instruct you to hand up and dial again.
